MISCELLANEOUS DISCUSSION

Soccer Fields at the New Griffin Park Sports Complex. Ms. Mary Francis, 850C Cardinal Creek Condos, asked what the ratio was for the soccer fields for competition teams and recreational teams. Mayor Miller said she would get that information to her after the meeting.

Councilmember Karjala said she is excited that this project is moving forward and thanked Norman Youth Soccer Association for providing a gracious tour.

Councilmember Castleberry said he is very excited that the master plan was approved tonight. He said there are a lot of moving parts coming forward and it is important to do the proper planning including the land purchase.

Councilmember Hickman said he is glad the City is moving forward with the project.

Councilmember Wilson she is really glad that the master plan is moving forward. She said it is a beautiful project.

Councilmember Clark said she has a son who plays on the Dragons at Griffin Park and wants people to come see what Griffin Park is like when it is full and there are no places to park. She said this new plan is wonderful.

Councilmember Allison said he is excited about Griffin Park especially because part of it is in Ward 8. He knows it will be a while before it is finished but this is the first kickoff to a great project.

Mayor Miller thanked the Soccer supporters for coming to the meeting tonight.

Miscellaneous Discussion, continued:

Advisory Committee. Ms. Mary Francis, 850C Cardinal Creek Condos, said when citizen advisory committees are set up by Council for projects, it is her understanding that the committee members are supposed to be consulted about the project but she has been told that is not the case.

*

Stormwater Utility. Mr. Cody Franklin, 718 West Hughbert Street, asked what the funding mechanism would be if a stormwater utility is brought before the voters and does not pass. He asked how and where Council would find funding to pay for repairs.

Councilmember Hickman said to make the necessary repairs will cost \$7 million for a small stretch of Imhoff Creek. He said not that long ago, this creek was a small four-foot wide bar ditch with grass growing in it but because the community is growing and developing, there is more storm water causing serious erosion and flooding. He said it will be a challenge to repair because of the close proximity of some of the nearby properties. He said without the citizens' support for a stormwater utility, the City does not have the money to correct the problem. He said Council is working hard to find a solution that this community can support. He said this is a need in our community which costs over \$60 million of infrastructure improvement. He asked citizens to reach out to their Councilmembers, the Mayor, or staff because without the residents of Norman helping, there is no other solution.

Councilmember Holman said one of the priority projects in his ward, the intersection of Elm Avenue and Lindsey Street is completely under water after a rain event. He said this project will cost several million dollars to fix and shows how important it is that stormwater be addressed properly.

*

OG&E Franchise. Mr. John Rushton, 1520 Windsor Way, voiced concerns about the OG&E renewal. He said it was his understanding there was a full year left on the contract and 25 years was a long time. He said during the next year, the City should look at what their options are because the cost of energy is rapidly changing. Mayor Miller said 2nd Reading of the ordinance regarding the OG&E Franchise will be August 22nd and it will be discussed at that time.

Councilmember Bierman said Council is interested in hearing everyone's concerns and ideas about the franchise and asked constituents to call or email with their comments.

Councilmember Castleberry said Council and Staff are in negotiations with OG&E on several issues and he wanted everyone to keep in mind that these issues are separate from the franchise agreement. He said this franchise agreement allows OG&E to use the City's right-of-way to install their equipment and OG&E pays the City a fee. He said the franchise agreement is non-binding, the City can opt out any time they want to, no one has to use OG&E, and it does give OG&E the right to operate in the right-of-way.

*

She said merchants on Lindsey Street are relieved that the Lindsey Street Bridge over I-35 is open but reminded everyone that these merchants still need everyone’s support.

*

*

Main Street Open. Councilmember Castleberry commended the Public Works Department because they had set a goal to have Main Street completely open before school started and the street is finished.

Councilmember Hickman thanked the Public Works Department for accomplishing this.

*

School Starting Soon. Councilmember Hickman said the first day of school is coming up on August 17th and urged everyone to be careful.

Councilmember Clark asked parents of children to pull an item from the teacher’s wish list and help in any way you can. She said all of our kids deserve great things and Norman does a lot to take care of that.

Councilmember Holman said the University of Oklahoma (OU) students are moving in this week and reminded Norman drivers that many of the students are from smaller towns and are not used to the traffic in Norman. He said many of the students will be walking around campus and crossing streets and many of them will be distracted. He asked drivers to watch out for them.

*

City Council Retreat. Councilmember Clark said the City Council Retreat had been on Friday and Saturday, August 4th and 5th, and many, many things were discussed. She said Council does so much work and covers so many issues, there is no way people can possibly understand what they do until you are a Councilmember. She knows people think some issues are ignored but she assured everyone that Council is listening. She agreed with Councilmember Bierman about residents sending their Councilmembers emails. She said she loves getting feedback from her constituents; it makes it easier to represent them when she knows what they care about.

Miscellaneous Discussion, continued:

City Council Retreat, continued. Mayor Miller thanked the staff members and Councilmembers who attended the retreat. She said what Councilmember Clark said was true, if you think your Councilmembers are not listening to you and your concerns, she promised there was an entire wall of issues that this Council wants to work on for the next few years. She said there were lots of good ideas, Council knows there are a lot of needs and they will be working together to prioritize those needs. She said stormwater and the Senior Citizens Center are at the top of the list.

*

Sidewalks on Lindsey Street. Councilmember Holman said Lindsey Street between Pickard Avenue and Jenkins Avenue has recently been repaved using Federal money and it required an Americans with Disabilities (ADA) sidewalk be built on the north side of the street. He said for the first time ever, there is a continuous sidewalk from Berry Road all the way to the campus. He said this project had been finished before school starts.
